

Hello Donald Trump, John DeStefano (and the Trump administration),

What university did you make contact with to work with my dissertation?  
Which university has agreed with you to work with me to receive my doctorate and post-doctorate? September is the traditional month for education. Academics are traditionally a big thing during September to in December. What university do you have ready to issue me my doctorate and post-doctorate for my advanced doctoral level work done through the past years and as is evidenced with my official material here with the Trump administration at the White House?

Back in 2011, I finished all the subject-matter courses in the doctoral program and did excellently. I then became a doctoral candidate. I then finished the required dissertation courses, and in March 2012, I submitted my dissertation into the area for the final reviews and approvals. At this point, my dissertation and the doctoral program were in the very ending times, and everything only had to be finished up. As described in various places, the university involved left my dissertation to be honored through the next years to now when I still have my excellent 2012 dissertation ready for a qualified American university to honor and bestow my doctorate to me.

After 2012 when I in actuality earned my doctorate by completing the doctoral program on highest of quality levels, as far as on my part, I continued working with my already excellent dissertation. I did more work with my dissertation. I advanced a next full-scale edition of my dissertation. I did post-doctoral work through the years of 2013 to 2019 and completed my post-doctoral

edition of my dissertation in June 2019 (see included sample of Chapter 5 of 2019 Post-doctorate Dissertation edition). As I have been communicating to here at the White House since in the summer of 2019, I have my post-doctoral 2019 edition of my dissertation ready for a qualified American university to honor and bestow my post-doctorate to me.

A qualified American university has to issue my doctorate and post-doctorate to me for many reasons and including because the student loans issue has to be taken care of, too. My continuing good work shows that I always did good work and including on advanced doctoral levels. I did have everything there in 2012 to earn my doctorate without needing years additional. The university involved back then did not earn student loan merits by leaving my dissertation to be honored later through the next years by some qualified American university that the White House may help at arranging. Issuing my doctorate and post-doctorate goes along with discharging my student loans in a *Student Loans Relinquishment Honor* and formally honoring my United States executive director position (also see Appendix A: Director Invoice).

I received another letter from Navient, the servicer for the U.S. Department of Education, which is the owner of the student loans and a part of the Trump administration (see Appendix B). The servicer mentioned that student loans are continuing on hold until December 31<sup>st</sup>, 2020 with no interest or payments. This time there was a specific mention of Trump authorizing no interest and no payments on the student loans until 12-31-2020, whereas the previous time Trump

was not mentioned. The letter is a standardized letter that was sent out to masses of people with student loans on hold right now. The letter did not deal with me specifically, my reconsideration request, my materials with the Federal Court in the Northern District of California, or my reports presented to the White House during the past four years.

The student loans servicer letter has to be understood as what it is in truth. The letter was good word for student loans holders in that Trump authorized no interest and no payments until 12/31/2020, but also, there is supposed to be indefinitely continuing administrative forbearance. Additionally, there cannot be a forgetting that all involved with the student loans situation and defense does not come from covid-19 affects or acts. The student loans are supposed to be kept on hold indefinitely until the student loans situation is worked out mutually with each student loan holder and especially those who are class action case members (Sweet v. DeVos, No. 19-cv-3674, N.D. Cal.). The student loans situation still has to be fully worked out because, otherwise, the same problems will continue and any good done with the student loans issue will be wiped out in a short amount of continuing time passage. The **jeopardy** has to be taken out of the continuance because no party involved should have to linger on with **jeopardy** as time passes by with no alleviating end in sight. With my request for reconsideration and court documents presented to the U.S. Department of Education, I abundantly informed the U.S. Department of Education of what is going on, as I likewise informed the U.S. District Court, Harvard Law School, and the White House.

The White House alone is no longer the only party informed of this vital information concerning the student loans issue and other top priority national issues. The U.S. Department of Education is also not the only party informed about what is going on. The Republican National Committee was not directly informed in the present times but was well informed in past years.

Some word could have leaked out to the Democrats. If the Trump administration, the U.S. Department of Education, or even the Republican Party plays dumb, that would only be dumb, and the Democrats could play you for dumb, being that the Democrats know what you think they do not know. You would be the ones at fault and not the Democrats. Better on your part is strongly recommended. Again, in the present times, relevant information was provided to the Trump administration at the White House, Harvard Law School, the U.S. Department of Education, and the U.S. District Court for the Northern District of California.

I have been wondering who is advising Trump concerning not only the U.S. Presidency but also U.S. Presidential campaigning. All expressed here is active concerning the U.S. Presidency, and power is present to do well in these areas to impress and influence the American people and Presidential election voters. Biden and the democrats campaigning toward the U.S. Presidential election cannot do these things and can only promise to do these things if elected. Trump and the Trump administration can do these things now and also make promises for the future. To be able to do things now is an advantage unwise to waste. U.S.

Presidential advisers should be advising correctly and with intents to win decisively and not just remain even.

There are more than 40 million people with student loans. The entire state of New York has a population of a little more than 19 million people. These 40 million people are not limited to the state of New York and are throughout the entire United States country. Most of these 40 million people affect or influence other people, too, so that could easily make the total people amount to 60 million. Influencing these people to a point where even 40 of the 60 million people actually vote for the particular candidate, such as Trump, would be a substantial boost and could add to significantly influencing electors and to decisively winning the U.S. Presidential election. That is how important the student loans issue is immediately and ongoing, not just some time in the future but immediately and ongoing.

I have my 2012 dissertation edition for my doctorate, and I have my 2019 dissertation edition for my post-doctorate. You can write a dissertation in a doctoral program, and with a good, passable dissertation, you can earn your doctorate. You can then work more on your dissertation—do more with your dissertation—and do post-doctorate work, and you can earn a post-doctorate. I earned my doctorate and then my post-doctorate, and with the societal circumstances being as they were through the years of post-doctoral work, a qualified American university is needed to work with my two dissertation editions and issue a doctorate and post-doctorate to me. I am eager to be informed of one or more potential universities that are

willing and ready to work with my two dissertation editions and issue me my doctorate and post-doctorate credentials.

I am including here as an attachment a sample of my 2019 post-doctoral dissertation. Chapter 5 of my 2019 post-doctoral dissertation is included. The work is presented to show that the dissertation is around, requiring, and worthy of due honors of post-doctorate completion, which is not only complete now but was complete a year ago in June 2019. This sample of my dissertation is not to be mistreated in any way. There are to be no negative assertions involving it and no criticism, and there can be no attempts to correct it, improve it, add to it, or rephrase any of it.

My 2012 and 2019 editions of my dissertation are at end points and not at beginning or middle points. With me, the doctoral and post-doctoral programs have to be ended successfully and not started or continued. There can be only positive movement, only rewards, only praises, inspirations, and exaltations, and there has to be and remain only intent to complete the university end of working with the dissertation, doctorate, and post-doctorate. There can be no bad intent or intent to delay, and there can be only intent to have all be efficient and successful.

You can communicate back to me with offers and opportunities you have to present to me. I have to receive my doctorate and post-doctorate credentials in regard of my past years of advanced doctoral level work, my 2012 doctoral dissertation edition, and my 2019 post-doctoral dissertation edition. I have to have my United States executive director official position secured (also see Appendix C:

Sovereignty Department Invoice). I have to have my *Student Loans Relinquishment Honor*. These areas are education, student loans, and professional career. These areas involve and affect other areas and are important for adding success to U.S. Presidential campaigning. Accomplishments made here in these directions are each an addition for U.S. Presidential campaigning. Each addition is a substantial merit worthy of regard, prestige, and influence.

I request communication back as soon as possible in this present month of September 2020 so that appropriate continuing plans can be made.

Thank you,

### **Student loan repayment and interest rate suspension for ED-owned Federal Student Loans have been extended to Dec. 31.**

JOSEPH,

On Aug. 8, 2020, President Trump extended the 0% student loan interest rate and suspension of payments on federal student loans owned by the Department of Education (ED) until Dec. 31, 2020.

#### **What does this mean?**

- You are not required to make payments on ED-owned loans until Jan. 1, 2021, and no interest will accumulate.
- Payments you would have made, but are no longer required to make, will count toward income-driven repayment (IDR) plan loan forgiveness.
- Payments you would have made, but are no longer required to make, will count toward Public Service Loan Forgiveness (PSLF) if you have a non-defaulted Direct Loan and work full-time for a qualifying employer during the suspension. You will need to submit an *Employment Certification Form* that includes this period to receive credit for your employment during this suspension of payment period.
- If you can continue paying your student loans while your loans are at 0% interest rate, your payments go farther toward reducing the principal balance of your loan amount once any outstanding interest has been paid. If you are already making voluntary payments nothing changes. If not, you may make voluntary payments by contacting us.

#### **You Never Have to Pay for Help**

Avoid student aid scams. You never have to pay for help with your federal student aid. Your student loan servicer provides free help with your questions or concerns about your loan payments.

Visit us online at [Navient.com](http://Navient.com) or give us a call at 800-722-1300, Monday - Thursday 8 a.m. to 9 p.m., and Friday 8 a.m. to 8 p.m., ET.

Sincerely,

Navient - Department of Education Loan Servicing
